QUALITY MANAGEMENT EXECUTIVE LEADERSHIP PROFILE

Forward-looking, adaptive leader and strategist with astute business, technical, operations management, and communication skills; driving force behind solid financial infrastructures, strong revenues, and organizational efficiencies. Expert in leading efforts to innovate strategies that foster alliances, facilitate collaboration, and implement transformational changes in federal, state, local, and municipal governments.

Influential strategic partner with 30 years of organizational assessment and transformation, financial analysis, economic strategy, performance measurement, enterprise risk management, audit and oversight experience in higher education and government sectors. Highly valued for expertise managing complex business issues and employing financial and business acumen to translate organizational vision into healthy organizational outcomes and positive financial results. Cultivate cultures of excellence by putting the right staff in place, setting high expectations, providing appropriate resources, inspiring employees to excel, holding employees accountable, and partnering with stakeholders/oversight bodies to implement transformational changes. Remain ahead of business best practices and emerging trends, as well as legal and compliance issues. Effective in communicating with individuals, groups, and across all levels of organizations; deep understanding of diverse cultures and the public interest issues. Proficient in American Sign Language. Prolific writer with a commitment to academic excellence, with works featured in numerous professional publications.

KEY ACCOMPLISHMENTS

- Led the development and implementation of the **digital dashboard system** to acquire and consolidate data across the agency in order to graphically display the performance of the agency's key business processes.
- Credited for role in **producing audit reports that generated in excess of \$200 million in cost savings and revenue enhancements** for the District of Columbia Government.
- Conducted an audit of condominium conversion fees, **yielding the District of Columbia Government \$37 million in revenue enhancements.**
- **Championed the implementation and administration of audit management software (TeamMate)** to improve the efficiency of auditing and reporting processes in a paperless environment.
- Devised and implemented strategies that **transformed Gallaudet University's audit office from a traditional accounting/budgeting entity into a modern internal audit function** that provided proactive, solution-oriented audit and management advisory services in support of the campus community.
- **Recognized as Gallaudet University's first deaf Director of Computer Services, Information Technology Services;** designed/implemented IT strategic plans, policies, and procedures and ensured job descriptions aligned with best practices; led the successful transition to the PeopleSoft system.
- **Planned and managed successful fundraising efforts that supported construction** of the Andrew Foster statue at Gallaudet University.
- **Named first and only deaf Editor-In-Chief of the College and University Auditor Journal** for the Association of College and University Auditors, serving audit professionals across the globe.

PROFESSIONAL EXPERIENCE & ACHIEVEMENTS

DC OFFICE OF THE INSPECTOR GENERAL, WASHINGTON, DC

2008 – Present

Deputy Inspector General for Quality Management, June 2015 -- Present

Ensure that the OIG complies with established guidelines, statues, and regulations including professional and quality standards promulgated by the Association of Inspectors General (AIG), Council of the Inspectors General on Integrity and Efficiency (CIGIE), U.S. Government Accountability Office (GAO), The Institute of Internal Auditors (IIA), Information Systems Audit and Control Association (ISACA), Association of Certified Fraud Examiners (ACFE), National Institute of Standards and Technology (NIST), and International Organization for Standardization (ISO). Lead efforts to continually examine the OIG's products, work processes, and activities in order to more holistically identify and address organizational performance problems, ensure that all OIG activities are routinely performed with the desired quality, and promote a quality culture of innovation, customer focus, continuous improvement, and risk management in the OIG.
